

BEDS NOT CUTS

Emergency shelters are only for emergencies.

Housing first.

We are cutting about 7500 TCHC units.

Mayor John Tory

I'm rich. I'm going to talk to the CD Howe Institute on Feb 9th to tell rich people how great the 2017 City budget will be for us. I care about poor people too - if there is a photo opportunity in it for me. Otherwise, I'm happy making a 2.6% cut, eliminating programs to prevent homelessness and causing more misery because that allows me to keep the City's property taxes the lowest in Ontario which benefits rich people like me.

Homeless shelters are bursting at the seams, rents are sky high, it takes more than a 10 years to get public housing, and rooming houses are being sold off to greedy developers. On February 9, join us to make sure Budget 2017 isn't a death sentence for people on the streets, and a push onto the streets for those who've thus far managed to hold onto some housing.

TORY WON'T STOP UNTIL WE MAKE HIM.

Thursday, February 9th - 11 am
